PART I

East Midlands Electricity plc Application Number EM150/95777 Date 25 April 1994

To the Chief Executive Planning Department Council South Holland District

Dear Sir

Electricity Act 1989

Application is being made to the Secretary of State for Energy for his consent to the development described overleaf. The Secretary of State will at the same time be requested to direct that planning permission for this development shall be deemed to be granted. The consent and the direction may be given subject to conditions.

To assist the Secretary of State to determine the application the District/Borough Council is requested to return to me two copies of this Form with Part I Certificate and Part II completed and signed.

Department of the Environment Circular 14/90 (Welsh Office Circular 20/90) [Department of Energy Circular 1/90] describes this procedure and the reason for it.

Yours faithfully
For and on behalf of East Midlands Electricity plc.

PARTICULARS OF PROPOSED DEVELOPMENT AND REPRESENTATIONS

(To be completed by East Midlands Electricity plc)

Application is being made:

(a) for consent under section 37 of the Electricity Act 1989 to install or keep installed an electric line above ground;

~~(b) for a direction under section 90(2) of the Town and Country Planning Act 1990 that planning permission for the proposed development be deemed to be granted.~~

1. Particulars of proposed development. (These particulars should be accompanied by such plans as may be necessary to enable the local planning authority to identify the land affected by the proposals and to appreciate the nature and extent of the proposed development and by a copy of the environment statement if the applicant has prepared one.)

To erect the proposed 11,000 volt overhead line on wooden poles in the parish of Sutton St James with a tolerance of 30m either side of the route shown on the attached plan.

2. Particulars of any representations of objections which have been made to East Midlands Electricity plc.

3. Particulars of the applicant's compliance with his duty under paragraph 1 of Schedule 9 to the Electricity Act 1989.

This new 11kv overhead line is proposed as a direct replacement of an existing circuit which is deteriorated and nearing the end of its useful life. The route of the new circuit has been changed thus reducing the length of the 11kv system by 170m. In addition, by rationalising the L.V. system a further 195m of L.V. line is to be removed. This will provide a considerable improvement in the visual impact of overhead lines in the area.
