Re Planning Application Number H20-0483-15 Mrs B Street Alma House 67 Broadgate Sutton St James Spalding Lincolnshire PE12 0EL

Dear David,
As discussed on the telephone on 24th July, I refer to the supporting information dated 22nd July and 24th July 2015 from Austin John Developments in respect of the above Planning Application.

The information supplied was based on obsolete and out of date information as they referred to the Company I originally was going to use to construct the kennels which was changed prior to my planning application being submitted. However for some reason the Company I instructed as my agents have reverted back to this.

The kennels are in fact being supplied by Haborn Products using 70mm composite panels as indicated in the background papers dated 4th June 2015. This provides superior acoustic and thermal protection; they are also used as cold room panels. The kennel doors are constructed from the same material.

I have done my utmost to ensure that the materials used in the construction of the kennels provide a high degree of acoustic reduction. This is evidenced by the comments made by South Holland District Council's Environmental Protection Officer Chris Bentley who has assessed the proposal with regards to potential noise issues as is normal with any kennel application and has no objections.

Please would you be able to add the amended details to the background papers being submitted to the Planning Committee as currently the information given is incorrect?

In view of the above I would be grateful if you could direct any further correspondence to myself and not the agent so as to ensure that any information you require is accurate. I apologise unreservedly for any inconvenience which has been caused.

Regards
