Dear Jacob,

I had a chat with the applicant yesterday, Chris Turley, who, as you are aware, has been in lengthy discussions with the IDB.

It has now been decided that the treated water outfall from the proposed Bio-disc will discharge into a soak-away, rather than what was proposed - the adjacent IDB watercourse. It iOS my understanding that both the IDB and your authority is satisfied with this solution. As such, please find enclosed two copies of drawing number 1808.1, revised today to confirm the above.

Best Regards

John Stephenson
