22 JUL 96

Form B (Type III)

Notes: This Form is for use in connection with an application for the Secretary of State for Energy's consent under **section 37** of the Electricity Act 1989 to install and keep installed above ground an electric line of a naminal voltage of less than 132 kilovolts. The Form should be sent **in triplicate** to each District/Borough Council in whose area the proposed development would be situated.

DETAILS OF APPLICANT
Name: East Midlands Electricity plc
Address: Tritton Road
Lincoln
Postcode: LN6 7RS
Telephone Number: 01522 684040

PART 1

East Midlands Electricity plc Application Number EM265/23/97909 Date 17.07.96
To the Chief Executive Planning Department Council South Holland District

Dear Sir

Electricity Act 1989

Application is being made to the Secretary of State for Energy for his consent to the development described overleaf. The Secretary of State will at the same time be requested to direct that planning permission for this development shall be deemed to be granted. The consent and the direction may be given subject to conditions.

To assist the Secretary of State to determine the application the District/Borough Council is requested to return to me two copies of this Form with Part I Certificate and Part II completed and signed.

Department of the Environment Circular 14/90 (Welsh Office Circular 20/90)[Department of Energy Circular 1/90] describes this procedure and the reason for it.

Yours faithfully
For and on behalf of East Midlands Electricity plc.

A. Tuplin
Designation: Estates & Wayleaves Officer

CERTIFICATE

(To be completed by or on behalf of the District/Borough Council)

The District/Borough Council

(i) object on the grounds set out below/have no objection to make to the development described overleaf.*

(ii) request/do not request that a public inquiry be held pursuant to paragraph 2 of Schedule 8 to the Electricity Act 1989 before the Secretary of State reaches his decision on the application.*

Date Signed

On behalf of the District/Borough Council

(Reasons for objections)

East Midlands Electricity plc Application Number EM265/23/97909

(Application dated 17.07.96)

PART II - INFORMATION AND OBSERVATION
(To be completed by the District/Borough Council)

Planning Reference Number _____

1. Names of interested parties consulted about the proposals with details of any observations received.

2. Particulars of any representations which have been made to the local planning authority objecting to the proposals.

3. Have any general or specific restrictions been imposed by any authority on development of the land affected by the proposed development?

PARTICULARS OF PROPOSED DEVELOPMENT AND REPRESENTATIONS
(To be completed by East Midlands Electricity plc)

Application is being made:

(a) for consent under section 37 of the Electricity Act 1989 to install or keep installed an electric line above ground;

~~(b) for a direction under section 90(2) of the Town and Country Planning Act 1990 that planning permission for the proposed development be deemed to be granted~~.

1. Particulars of proposed development. (These particulars should be accompanied by such plans as may be necessary to enable the local planning authority to identify the land affected by the proposals and to appreciate the nature and extent of the proposed development and by a copy of the environment statement if the applicant has prepared one.)

   To erect the proposed 11,000 volt overhead line on wooden poles in the parish of Sutton St James with a tolerance of 30m either side of the route shown on the attached plan.

2. Particulars of any representations of objections which have been made to East Midlands Electricity plc.

3. Particulars of the applicant's compliance with his duty under paragraph 1 of Schedule 9 to the Electricity Act 1989.

   The new 11KV overhead line proposed is a direct replacement for both the existing HV & LV lines which are near the end of their useful life. The HV line will be rebuilt partially on the existing HV and LV route and partially on a new route running along Broadgate roadside. On completion the scheme will result in the replacement of a total route length of 2,150 metres HV and 1,540 metres LV lines with a total length of 1,900 metres HV & LV 180 metres (the remainder low voltage being underground). As well as the obvious reduced visual impact on the environment by the reduction in the total route length of overhead line the impact is further reduced by the change in wirescape from vertical to horizontal.

Date 17.07.96 For and on behalf of East Midlands Electricity plc

Signed  A. Tuplin Designation: Estates & Wayleaves Officer

***Note:** This Part to be completed, dated and signed before submitting to the local planning authority*

4. Does the proposed development involve the demolition, alteration or extension of a building of special architectural or historic interest included in a list compiled or approved under section 1 of the Planning (Listed Buildings and Conservation Areas) Act 1990?

5. Does the local planning authority agree that the proposed development should be approved by the Secretary of State for Energy as described? (If the answer is 'NO', please answer question 6.)

6. Would the local planning authority be prepared to agree that the proposed development should be approved subject to modifications or conditions? (If so, specify the modifications or conditions proposed and state whether they are acceptable to the applicant). (Note: the precise form of any modifications or conditions subject to which the consent or direction given is a matter for the Secretary of State, but he will have regard to the form of words used by the local planning authority.)

Date Signed

Designation

On behalf of the Council

(Local planning authority for the area in which the proposed development is to be carried out.)

Two completed copies of this Form, both signed, should be returned to East Midlands Electricity plc for submission by them to the Department of Energy.
