CASE OFFICER ASSESSMENT

Proposal

The application comprises a determination as to whether prior approval is sought for an extension to an agricultural store at Franville. This is under Class A of Part 6 in Schedule 2 of the Town and Country Planning (General Permitted Development) Order 2015 as amended.

Site Description

The site is located outside any defined settlement boundary as outlined in the South East Lincolnshire Local Plan, 2019 (SELLP). It is set off Sutton Road and located directly adjacent to a caravan site and leads directly over Foreman's Bridge.

History

H20-0254-10 - Proposed agricultural building - Approved

Material Considerations

The proposal constitutes permitted development under Class A of Part 6 of Schedule 2 of the Town and Country Planning (General Permitted Development) Order 2015. This is subject to the

developer applying to the local planning authority to determine as to whether the prior approval of the authority will be required as to the siting, design and external appearance of the building. A building within 90 metres has not been provided on the holding within the last 2 years.

This application is therefore to determine whether the prior approval of the authority will be required as to the siting, design and external appearance of the building in accordance with paragraph A.2 (2).

The walls will be constructed in profile metal cladding (Moorland Green). The roof would also be profile metal cladding in the same colour (Moorland Green). These materials are considered to be appropriate for a building of this nature. The prior approval of siting, design and external appearance is not therefore required in this case.

Conclusion

Prior approval for the extension to an agricultural store is not required.
