

**Our ref:** 25\_30551\_P

28/01/2025

**Your ref:** H20-0933-24

**Site Location:** Poplar Farm Old Fendyke Sutton St  
James Spalding PE12 0HE

**Summary of Proposal:** Construction of new glass house to grow flowers for existing horticultural facility.

Dear Catherine Sutton,

Thank you for your consultation on the above application.

The site is within the Internal Drainage District (IDD) of the South Holland Internal Drainage Board (IDB) and therefore the Board's Byelaws apply. Whilst the Board's regulatory process (as set out under the Land Drainage Act 1991 and the Board's Byelaws) is separate from planning, the ability to implement a planning permission may be dependent on the granting of any required Land Drainage Consents.

The Board's Officers have reviewed the documents submitted in support of the above planning application. Officers have noted works which require Land Drainage Consent from the Board as outlined in the table below and detailed overleaf. Please be aware of the potential for conflict between the planning process and the Board's regulatory regime.

**As Land Drainage Consent is required, the Board strongly recommends that this is sought from the Board prior to determination of this planning application.** The Board will only consider the proposals in detail on receipt of an application for Land Drainage Consent. The annexe at the end of this letter outlines the Board's regulatory function and how to apply for Land Drainage Consent.

Byelaw / Section of Act	Description	Requirement
Byelaw 3	Discharge of water to a watercourse (treated foul or surface water)	<b>Consent required</b>
Section 23, Land Drainage Act 1991	Alteration of a watercourse	Consent not currently required
Byelaw 10	Works within 9 metres of a Board maintained watercourse	Consent not currently required

Duncan Worth (Chairman)

Simon Bartlett (Vice-Chairman)

Phil Camamile (Chief Executive)

Constituted by The Anglian Water Authority (South Holland Internal Drainage District) Order 1974,  
Statutory Instrument 1974 No.1209. Reconstituted in 1993. Statutory Instrument 1993 No.453.

[www.wlma.org.uk](http://www.wlma.org.uk)

### **Byelaw 3 (Surface Water)**

The applicant proposes to discharge surface water to a watercourse at a minimum rate of 5l/s. This rate is in excess of greenfield rate and I recommend that the applicant takes measures to reduce the rate to as near greenfield as possible. Regardless of the proposed discharge rate, this proposal will require consent under Byelaw 3, and I recommend that the applicant look into the possibility of reducing the proposed discharge rate prior to applying for consent. Please note that we recommend that any discharge is in line with the [Non-Statutory technical standards for sustainable drainage systems \(SuDS\)](#), therefore the Board is unlikely to grant consent for discharges in excess of greenfield rate. A surface water development contribution is likely to be payable as a condition of any consent granted under Byelaw 3 in line with the WMA's [Development Control Charges and Fees](#).

### **Section 23, Land Drainage Act 1991**

I note the presence of a watercourse which is not maintained by the Board (a riparian watercourse) adjacent to the northeastern site boundary. I also note the presence of several riparian watercourses within and adjacent to the wider ownership boundary. Whilst not currently proposed, should the applicant's proposals change to include works to alter the riparian watercourse, or if works are proposed to alter the watercourse at any time in the future, consent would be required under the Land Drainage Act 1991 (and byelaw 4).

Additionally, whilst not adjacent to the development site boundary, I note the presence of a Board Maintained watercourse (DRN198P1201 - G12 Taylors Drain) adjacent to the wider ownership boundary. Whilst not currently proposed, should the applicant's proposals change to include works to alter the watercourse, or if works are proposed to alter the watercourse at any time in the future, consent would be required under the Land Drainage Act 1991 (and byelaw 4).

### **Byelaw 10**

Whilst not currently proposed, should the applicant's proposals change to include works within 9 metres of the aforementioned Board Maintained watercourse, or if works within 9 metres of the watercourse are proposed at any time in the future, consent would be required under Byelaw 10.

**Please see the supplementary information overleaf for further detail on the Board's policy and consenting process.**

If, following review of our comments and supporting policy documents linked below, you wish to discuss any of the requirements I have raised, please contact the Board using the details at the head of this letter.

Yours sincerely,

Phi

Phillipa Nanson  
Sustainable Development Officer  
Water Management Alliance

## How to Apply for Land Drainage Consent

To apply for Land Drainage Consent please complete an application form.

Application forms, application fees and 'Frequently Asked Questions' can be found on the 'Development' section of the Board's website, here:

<https://www.wlma.org.uk/south-holland-idb/home/#Development>

For any additional help please call us on 01553 819600 or email [planning@wlma.org.uk](mailto:planning@wlma.org.uk).

## Byelaws

South Holland IDB Byelaws can be found via the following link:

[https://www.wlma.org.uk/uploads/SHIDB\\_Byelaws.pdf](https://www.wlma.org.uk/uploads/SHIDB_Byelaws.pdf)

## Mapping

Mapping of the district can be viewed via the following link:

[https://www.wlma.org.uk/uploads/210-SHIDB\\_Index.pdf](https://www.wlma.org.uk/uploads/210-SHIDB_Index.pdf)

## Planning and Byelaw Strategy

The Board's Planning and Byelaw Strategy seeks to provide:

- Guidance on how (and why) the Board will review and comment on planning applications.
- Information on the policies against which the Board will assess and determine applications.
- Guidance to riparian (waterside) landowners regarding watercourse maintenance.

The Planning and Byelaw Strategy can be found via the following link:

[https://www.wlma.org.uk/uploads/WMA\\_Planning\\_and\\_Byelaw\\_Policy.pdf](https://www.wlma.org.uk/uploads/WMA_Planning_and_Byelaw_Policy.pdf)

## Arterial Watercourses

Maps on the Board's website show which watercourses are designated as Arterial Watercourses by the Board. You may also have heard these watercourses referred to as 'Main Drains' or 'Maintained Watercourses'. The designation is an acknowledgement by the Board that the watercourse is of arterial importance to the Internal Drainage District and as such will normally receive maintenance from the IDB using the Board's Permissive Powers. Although the Board opts to proactively maintain this arterial network, there is no change in the ownership or liability associated with the watercourse resulting from this designation.

## Why we have commented on this application:

By engaging with the planning process the Board is seeking to:

- Reduce flood risk to communities within the Internal Drainage District
- Promote sustainable development in sustainable locations by supporting sound planning decisions in accordance with the National Planning Policy Framework (especially [Paragraph 167](#)) and the [Non-standard technical standards for SuDS](#).
- Reduce the potential for conflict between the planning process and the Board's regulatory process.

For further information please refer to the Board's Planning and Byelaw Strategy.
