

DECISION DELEGATED TO HEAD OF PLANNING

Application No: H21-0983-25 **Applicant:** Mr D Withers

Proposal: Erection of single-storey rear and side extensions - Approved under H21-0859-24. Modification of Condition 2 to allow amendments to previously approved plans

Location: The Copse Church Way Tydd St Mary

Terminal Date: 8th December 2025

Planning Policies

South East Lincolnshire Local Plan - Adopted: March 2019

01	Spatial Strategy
02	Development Management
03	Design of New Development
36	Vehicle and Cycle Parking
APPENDIX 6	Parking Standards

CASE OFFICER ASSESSMENT

Proposal

This is a Section 73 application seeking to modify Condition 2 of H21-0859-24, for the addition of a chimney.

The proposed chimney would be located on the side elevation to appear less prominent.

Site Description

The site is located within the defined settlement boundary of Tydd St Mary, as outlined in the South East Lincolnshire Local Plan, 2019 (SELLP). The Copse is one of seven similar bungalows set back from Church Way by around 30m. Each dwelling is of a similar size and design and constructed from somewhat identical materials.

History

H21-0462-95 - Residential development - ten plots - bungalows with vehicle access Approved

H21-0786-95 - Additional landscaping for residential development (Condition 3 of H21/0462/95) - Approved

H21-0898-95 - Details of fence to boundaries of Plots 1-4 (Condition 2 of application H21/0462/95) - Approved

H21-1176-95 - Bungalow with detached single garage - Approved

H21-0100-96 - Details of landscaping and screening (Conditions 4 and 6 of application H21/1176/95) - Approved

H21-0859-24 - Erection of single-storey rear and side extensions - Approved

Consultation Responses

North Level Internal Drainage Board

No objections.

Lincolnshire County Council Highways Authority

Comments:

The proposal is for minor amendments to 2 that already has approval under H21-0983-25. The minor amendments proposed will not have an adverse impact upon the public highway or surface water flood risk.

Public Representation

This application has been advertised in accordance with the Development Procedure Order and the Council's Statement of Community Involvement. In this instance, no letters of representation have been received.

Key Planning Considerations

Evaluation - Section 73

The proposal relates to the variation of Condition 2 of H21-0859-24, through seeking permission under Section 73 of the Act. The purpose of an application made under Section 73 of the Town and Country Planning Act 1990 is to vary or remove conditions associated with an existing planning permission. These applications are used to allow for amendments to an approved scheme and can be made both retrospectively and prior to a permission being implemented, as long as the permission is extant.

The Act is very clear that: "On such an application the Local Planning Authority shall consider only the question of the conditions subject to which planning permission should be granted." As such, the Local Planning Authority are not able to revisit the principle of development and only matters relevant to the specific conditions can be considered. The effect of granting permission would be to issue a new permission with Condition 2 amended, together with any other relevant conditions from the original permission, or subsequent relevant revisions since this permission.

Planning practice guidance highlights that where less substantial changes are proposed, amending a proposal can occur through 'Amending the conditions attached to the planning permission, including seeking to make minor material amendments'.

The PPG clarifies that "Permission granted under Section 73 takes effect as a new, independent permission to carry out the same development as previously permitted subject to new or amended conditions. The new permission sits alongside the original permission, which remains intact and unamended. It is open to the applicant to decide whether to implement the new permission or the one originally granted". There is no statutory definition of a 'minor material amendment'; but this is likely to include any amendments where its scale and/or nature results "in a development which is not substantially different from the one which has been approved".

In this instance, the subsequent amendments, submitted under this Section 73 application, have not varied the description of development.

In the case of R (Vue Entertainment Limited) v City of York Council, it was concluded that the decision gives clear support for use of s.73 in respect of changes to condition which go beyond 'minor' amendments. It places a clear emphasis on preserving the precise terms of the grant. If an amendment to a condition can be made which keeps the description of the development intact it may well be appropriate to make such an application under a s.73, even if the effect of the change will be significant".

Principle of Development and Sustainability

The South East Lincolnshire Local Plan (2019) sets out the settlement hierarchy in respect of delivering sustainable development that meets the social and economic needs of the area whilst protecting and enhancing the environment; in order to provide enough choice of land for housing to satisfy local housing need, whilst making more sustainable use of land and to minimise the loss of high-quality agricultural land by developing in sustainable locations and at appropriate densities.

Policy 1 of the South East Lincolnshire Local Plan (2019) sets out a spatial strategy for delivering sustainable development across South East Lincolnshire to 2036. Policy 1 (Spatial Strategy) expresses this sustainable framework of settlements, ranking the settlements deemed to be most sustainable in descending order.

Policy 1 (Spatial Strategy) of the South East Lincolnshire Local Plan (2019) indicates that within Main Service Centres, development will be permitted that supports their role as a service centre for the settlement itself, helps sustain existing facilities or helps meet the service needs of other local communities.

The application site in this instance is in Tydd St Mary as detailed by Policy 1. Regardless of such, the proposal solely relates to modifications to previously approved plans, even so, the amendments under this application are of a very minor scale. The application is also at an existing and established residential dwelling and therefore, the principle of such development is considered to be appropriate, comprising an appropriate form of development for the location.

As such, the proposal is considered to be acceptable with the requirements of the South East Lincolnshire Local Plan (2019) when viewed in principle. This is subject to the assessment against site specific criteria; including (but are not limited to) the impact of the proposal on the character or appearance of the area, impact on the residential amenities of neighbouring occupiers, and impact on highway safety, which are discussed in turn as follows.

Layout, Design and Consideration of the Character and Appearance of the Area

Section 12 of the National Planning Policy Framework (December 2024) specifically relates to 'Achieving well-designed places' and details that the "creation of high quality, beautiful and sustainable buildings and places is fundamental to what the planning and development process

should achieve" and as such, it is generally accepted that good design plays a key role towards sustainable development.

Paragraph 135, contained within Section 12 of the National Planning Policy Framework (December 2024), states that new development should function well and add to the overall quality of the area (beyond the short term and over the lifetime of the development) and should be visually attractive as a result of good architecture, layout and appropriate landscaping. This goes on to establish that it is important that new development should be of the highest quality to enhance and reinforce good design characteristics, and that decisions must have regard towards the impact that the proposed development would have on local character and history, including the surrounding built environment and landscape setting such as topography, street patterns, building lines, boundary treatment and through scale and massing.

Development proposals should also ensure that developments create places that are safe, inclusive and accessible and which promote health and well-being, with a high standard of amenity for existing and future users, among other considerations.

Likewise, Policy 2 of the South East Lincolnshire Local Plan (2019) outlines sustainable development considerations for development proposals, providing a framework for an operational policy to be used in assessing the sustainable development attributes of all development proposals. Furthermore, Policy 3 accords with the provisions of Section 12 of the National Planning Policy Framework (December 2024), in that it requires development to comprise good design; identifying issues that should be considered when preparing schemes so that development sits comfortably with, and adds positively to, its historically-designated or undesignated townscape or landscape surroundings.

These policies accord with the provisions of the National Planning Policy Framework (December 2024) and require that design which is inappropriate to the local area, or which fails to maximise opportunities for improving the character and quality of an area, will not be acceptable.

Proposals for new development would therefore require the aforementioned considerations to be adequately assessed and designed, including the siting, design and scale to be respectful of surrounding development and ensure that the character of the area is not compromised.

As outlined above, the only change within this application is to include a chimney on the side elevation. This proposed chimney would be approximately 350mm less than an existing chimney on site; albeit, the design of the chimney is notably different and the previously permitted scheme, sought to remove the existing chimney.

Given the modest scale, appropriate design and its location on the side elevation which would ensure the addition is less visible and prominent along the street scene, the proposal would not cause an unacceptable impact upon the character or appearance of the area.

Overall, due to the very minor change proposed within this submission, there would no material harm caused to the wider area.

Taking account of the design, scale and nature of the development, as detailed above, the proposal is considered to be acceptable. The proposal would not cause an adverse impact to the character or appearance of the area and would therefore be in accordance with Policies 2 and 3 of the South East Lincolnshire Local Plan (2019) and Section 12 of the National Planning Policy Framework (December 2024).

Impact on Residential Amenity/Land Users

Paragraph 135 of the National Planning Policy Framework (December 2024) states that development should create places that are safe, inclusive and accessible and which promote health and well-being, with a high standard of amenity for existing and future users; and where crime and disorder, and the fear of crime, do not undermine the quality of life or community cohesion and resilience.

Policies 2 and 3 of South East Lincolnshire Local Plan (2019) sets out that residential amenity and the relationship to existing development and land uses is a main consideration when making planning decisions.

As this application is purely for the addition of a chimney for a fireplace, there would be no harm in relation to overlooking. Furthermore, due to the fairly minor scale of the chimney there would also be no material overshadowing concerns either.

As detailed above, the scale and design of the proposal is considered to be such that there would be no significant or unacceptable impact on the residential amenities of the occupiers of adjacent properties or land users, when also taking account of the conditions recommended. As such, the proposal is considered to accord with the provisions of the Section 12 of the National Planning Policy Framework (December 2024), and Policies 2 and 3 of the South East Lincolnshire Local Plan (2019).

Planning Balance

As detailed above, Section 38 (6) of the Planning and Compulsory Purchase Act 2004, as amended, requires that the Local Planning Authority makes decisions in accordance with the adopted Development Plan, unless material considerations indicate otherwise.

The proposal represents appropriate development within the defined settlement boundary. The development hereby proposed does not materially harm the character or appearance of the locality and amenity of nearby residents, whilst conforming with the South East Lincolnshire Local Plan (2019) and the provisions of the National Planning Policy Framework (December 2024) when viewed as a whole.

In this instance, there are no material considerations that weigh against the proposal and as such, the planning balance is in favour of the development.

Additional Considerations

Public Sector Equality Duty

In making this decision the Authority must have regard to the public sector equality duty (PSED) under s.149 of the Equalities Act. This means that the Council must have due regard to the need (in discharging its functions) to:

A. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act

B. Advance equality of opportunity between people who share a protected characteristic and those who do not. This may include removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic; taking steps to meet the special needs of those with a protected characteristic; encouraging participation in public life (or other areas where they are underrepresented) of people with a protected characteristic(s).

C. Foster good relations between people who share a protected characteristic and those who do not including tackling prejudice and promoting understanding.

The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The PSED must be considered as a relevant factor in making this decision but does not impose a duty to achieve the outcomes in s.149. It is only one factor that needs to be considered, and may be balanced against other relevant factors.

It is not considered that the recommendation in this case will have a disproportionately adverse impact on a protected characteristic.

Human Rights

In making a decision, the Authority should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as South Holland District Council to act in a manner that is incompatible with the European Convention on Human Rights. The Authority is referred specifically to Article 8 (right to respect for private and family life) and Article 1 of the First Protocol (protection of property).

It is not considered that the recommendation in this case interferes with local residents' right to respect for their private and family life, home and correspondence, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is

also permitted to control the use of property in accordance with the general public interest and the recommendation is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

Conclusion

Taking the above considerations into account, the proposal is considered to be in accordance with Policies 1, 2 and 3 of the South East Lincolnshire Local Plan (2019), along with the identified sections contained within the National Planning Policy Framework (NPPF) (December 2024). There are no significant factors in this case that indicate against the proposal and outweigh the consideration in favour of the proposal and the policies referred to above.

Recommendation

Based on the assessment detailed above, it is recommended that the proposal should be approved under Delegated Authority.
