Thank you for consulting me on this application.

I have reviewed the document submitted to discharge part (iii) of condition 14 of H22-0685 and unfortunately it does not contain all of the information necessary to satisfy this part of the condition.

The document is undated, and it is unclear who has written it, we would expect it to be produced by a competent person and reference the previous reports produced for the site.

I recommend that the applicant looks at the remediation section of the document 'Technical Guidance for Developers, Landowners and Consultants' by Yorkshire and Lincolnshire Pollution Advisory Group dated June 2020 which can be found under Contaminated Land on the South Holland District Council website for further details.
