CASE OFFICER ASSESSMENT

PROPOSAL

This is a householder application seeking permission for a rear single storey flat roofed extension for accessible living at 108 High Road, Weston.

The extension would have dimensions of approx. 8.4m by 4.2m and be constructed from brick to match the existing dwelling with a felt/fibre glass flat roof. The extension would provide a bedroom, shower room and entrance hall, with the existing ground floor shower room being converted to form part of a larger kitchen. These accessibility adaptations are required to meet the needs of a disabled person.

SITE DESCRIPTION

The property is a semi-detached dwelling situated on the southern side of High Road, within the built-up area of Weston. It is located opposite St Mary's Church. The dwelling is set back from the road with a large gravelled driveway. There is access to the rear of the property to the south-western side of the dwelling. The rear garden is long, narrow and triangular in shape. Adjoining properties also benefit from long gardens and the properties to the rear are some distance away.

RELEVANT PLANNING HISTORY

None.

REPRESENTATIONS

No consultation responses.

PLANNING CONSIDERATIONS

Principle of development

The site is within the settlement boundary of Weston as set out in the South East Lincolnshire Local Plan (SELLP), 2019. The principle of a house extension that is incidental to the enjoyment of a dwellinghouse is acceptable.

Section 38 (6) of the Town and Country Planning Act, as amended by the 2004 Act, states that the determination must be made in accordance with the development plan unless material considerations indicate otherwise. The key material considerations are addressed below.

Layout, Design, Size and Scale

Paragraph 127 of the National Planning Policy Framework (NPPF), 2019 establishes that planning policies and decisions should ensure that developments will function well and add to the overall quality of the area; are visually attractive as a result of good architecture and sympathetic to local character and history, including the surrounding built environment and landscape setting; and create places that are safe, inclusive and accessible and which promote health and well-being, with a high standard of amenity for existing and future users, among other considerations. Likewise, Policy 2 of the SELLP states that design which is inappropriate to the local area, or which fails to maximise opportunities for improving the character and quality of an area, will not be acceptable.

The aim of the proposed development is to adapt the property to meet the functional needs of a disabled person. The proposed extension would have a width of approx. 4.2 metres with a depth of 8.4 metres to the rear of the house. Having regard to the existing dimensions of the house and the plot it sits within, the proposed extension is acceptable in terms of scale, mass and bulk.

The extension would be flat roofed, however given that it would be located to the rear of the dwelling there are no visual amenity concerns.

In summary, the scale and height of the proposed extension is commensurate with the building and adjoining development. The extension would be constructed from bricks to match the existing house and would not detract from the visual amenity in the setting of the property. The development would meet the functional needs of the house occupier. For these reasons, this application complies with the aforementioned policies on design, layout and impact upon the character of the local area.

Impacts upon Residential Amenity

The proposed extension is single storey in nature with a flat roof, therefore it is not considered that there would be a material adverse impact in terms of overshadowing or the development being overbearing for the neighbouring property.

French doors would be installed on the rear elevation with a separation distance of approx. 53m to the property to the rear. There would therefore not be a material overlooking aspect in that direction. The side facing window would be obscure glazed (shower room) therefore meaning no overlooking to the south-west.

Taking the above into account, the proposal is considered to be in accordance with Policies 2 and 3 of the SELLP, 2019 and Section 12 of the NPPF, 2019 in terms of residential amenity.

Planning Balance

The proposal will not materially harm the character or appearance of the locality or amenity of nearby residents. The planning balance is therefore considered to be in favour of the proposal.

CONCLUSION

In light of the considerations above, the proposal is considered to be in accordance with Policies 2 and 3 of the South East Lincolnshire Local Plan (2019) and Section 12 of the National Planning Policy Framework (2019).

Additional Considerations

Public Sector Equality Duty

In making this decision the Authority must have regard to the public sector equality duty (PSED) under s.149 of the Equalities Act. This means that the Council must have due regard to the need (in discharging its functions) to:

- A. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act.
- B. Advance equality of opportunity between people who share a protected characteristic and those who do not. This may include removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic; taking steps to meet the special needs of those with a protected characteristic; encouraging participation in public life (or other areas where they are underrepresented) of people with a protected characteristic(s).
- C. Foster good relations between people who share a protected characteristic and those who do not including tackling prejudice and promoting understanding.

The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The PSED must be considered as a relevant factor in making this decision but does not impose a duty to achieve the outcomes in s.149. It is only one factor that needs to be considered, and may be balanced against other relevant factors.

It is not considered that the recommendation in this case will have a disproportionately adverse impact on a protected characteristic.

Human Rights

In making a decision, the Authority should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as South Holland District Council to act in a manner that is incompatible with the European Convention on Human Rights. The Authority is referred specifically to Article 8 (right to respect for private and family life) and Article 1 of the First Protocol (protection of property).

It is not considered that the recommendation in this case interferes with local residents' right to respect for their private and family life, home and correspondence, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general public interest and the recommendation is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

RECOMMENDATION

That the application be approved under delegated powers.

Note: The application was considered by Chairman's Panel on 30th April 2021 and members were content for the application to be dealt with under delegated powers.
