Every knight and every princess needs a horse. The Story Maker horse presents two colour variants, a black steed for races and an elegant, strong mare for a ride in the woods. The rider is placed in the saddle and well balanced with a leg on each side and from there can choose to rock with the highest momentum or to enjoy a more controlled ride.

Theme
Cognitive: suggests a theme and supports dramatic play, which stimulates languages and communication skills.

Rocking spring
Physical: response to movements adds to spatial awareness and sense of balance. These are fundamental motor skills that help the child's ability to sit still on a chair which takes a good sense of balance. **Cognitive:** trains the understanding of cause and effect: when I move my body, the spring responds with movement.

Handhold
Physical: the possibility to hold onto more areas of the handhold ensures a good grip, necessary for rocking intensely. This trains hand and arm muscles.

Foot support
Physical: a good footrest supports intensive rocking. Rocking stimulates the senses of balance and space that are fundamental in managing the world securely. To rock intensely also supports coordination and muscle strength.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
