CASE OFFICER ASSESSMENT

Proposal

The application is for a determination as to whether prior approval is sought for a lined reservoir under Class A of Part 6 in Schedule 2 of The Town and Country Planning (General Permitted Development) Order 2015 (as amended).

The reservoir (including banks) would have a maximum length in the order of 252 metres and width varying between 72 and 142 metres approximately. The banks would have a height of some 2 metres and the maximum water depth would be some 3.75 metres. It would be used to store rainwater for use on the farm complex. An existing overhead electricity line would be re-routed.

Site Description

The site is located in open countryside approximately 2km to the north-east of Weston and some 300m to the north of St Lambert's Farm. The nearest properties are Oldershaw Barn Hall and St Lambert's Cottage some 420 metres to the north-east and St Lambert's Hall to the south.

Site History

Non directly relating to the site.

Material Considerations

The proposal constitutes permitted development under Class A of Part 6 of Schedule 2 of the Town and Country Planning (General Permitted Development) Order 2015. This is subject to the developer applying to the local planning authority to determine as to whether the prior approval of the authority will be required as to the siting, design and external appearance of the building.

The site is isolated and is not in a sensitive location. It is some distance from the nearest residential property. The prior approval of siting, design and external appearance is not required in this case.

Conclusion

Prior approval for the siting, design and external appearance is not required.

Additional Considerations

Public Sector Equality Duty

In making this decision the Authority must have regard to the public sector equality duty (PSED) under s.149 of the Equalities Act. This means that the Council must have due regard to the need (in discharging its functions) to:

- A. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act
- B. Advance equality of opportunity between people who share a protected characteristic and those who do not. This may include removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic; taking steps to meet the special needs of those with a protected characteristic; encouraging participation in public life (or other areas where they are underrepresented) of people with a protected characteristic(s).
- C. Foster good relations between people who share a protected characteristic and those who do not including tackling prejudice and promoting understanding.

The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The PSED must be considered as a relevant factor in making this decision but does not impose a duty to achieve the outcomes in s.149. It is only one factor that needs to be considered, and may be balanced against other relevant factors.

It is not considered that the recommendation in this case will have a disproportionately adverse impact on a protected characteristic.

Human Rights

In making a decision, the Authority should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as South Holland District Council to act in a manner that is incompatible with the European Convention on Human Rights. The Authority is referred specifically to Article 8 (right to respect for private and family life) and Article 1 of the First Protocol (protection of property).

It is not considered that the recommendation in this case interferes with local residents' right to respect for their private and family life, home and correspondence, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general public interest and the recommendation is considered to be a proportionate response to the submitted application based on the considerations set out in this report.
