TOWN AND COUNTRY PLANNING ACT 1990

OUTLINE

Reference: H22-0754-18 **Date of Decision:** 6th March 2019

Applicant: Mr & Mrs Biehler
The Old Vicarage
Weston
Spalding
Lincs
PE12 6RA

Location: 163 - 183 High Road Weston Spalding Lincs

Description: Residential Development for 51 Dwellings

South Holland District Council hereby give notice that this application has been GRANTED (or equivalent) subject to the following condition(s):

1 Application for approval of reserved matters must be made not later than three years beginning with the date of this permission, and the development must be begun before the expiration of two years from the final approval of reserved matters or in the case of approval on different dates, the final approval of the last such matter to be approved.

Reason: As required by Section 92 of the Town and Country Planning Act 1990 as amended by the Planning and Compulsory Purchase Act 2004.

2 The development hereby permitted shall be carried out in accordance with the following approved plans and documents:
Application Form
Design & access statement SD17 044 DAS
Location plan
Indicative Site Layout SD17-044/1C
Topographical Survey 37617/03
Surface Water Drainage Strategy prepared by Sidebottom Richardson Cheng LTD.

November 2018
Ecological Appraisal prepared by Andrew P Chick October 2018
Flood Risk Assessment prepared by Geoff Beel Consultancy September 2018. GCB/Status Design

Reason: For the avoidance of doubt and in the interests of proper planning.

3 The following matters are reserved for subsequent approval by the Local Planning Authority and no development to which these matters relate shall be carried out until these matters have been approved, viz:

i) detailed drawings of the estate layout to a scale of not less than 1:500 and including road and plot layouts;
ii) detailed drawings to a scale of not less than 1:100 showing the siting, design and external appearance of each building, including a schedule of the materials to be used for external walls and roof;
iii) the siting and design of any vehicular access to a highway or estate road;
iv) the means of foul and surface water disposal as it relates to the layout of the development;
v) details of landscaping and tree planting.
vi) the existing and proposed site levels and floor levels of the buildings and hard surfaced areas.

Reason: The application was submitted in outline only and the above details are required to enable the Local Planning Authority to assess the detailed design, scale, appearance and layout of the development as well as ensure that appropriate access and services are provided to serve the development.
This Condition is imposed in accordance with Policies SG12, SG13, SG14 and SG18 of the South Holland Local Plan, 2006 and national guidance contained in the National Planning Policy Framework, 2019.

4 Prior to the commencement of the development hereby permitted beyond oversite, a plan illustrating all areas of publicly accessible open space shall be submitted to and approved in writing by the Local Planning Authority. The areas so approved shall be laid out and made available for use in accordance with a specification and phasing that shall first be agreed in writing by the Local Planning Authority, and shall thereafter be so maintained.

Reason: To ensure that adequate open space provision is made available for the occupiers of the development hereby permitted and that provision is made for the management and maintenance of the open space.
This Condition is imposed in accordance with Policies SG14 and HS11 of the South Holland Local Plan, 2006.

5 A management plan for the areas of publicly accessible open space and any outdoor play areas, including management responsibilities and maintenance schedules, shall be submitted to and approved in writing by the Local Planning Authority prior to the commencement of the development hereby permitted beyond oversite. The management of these areas shall be carried out in accordance with the details so approved.

Reason: To ensure that adequate open space provision is made available for the

occupiers of the development hereby permitted and that provision is made for the management and maintenance of the open space.
This Condition is imposed in accordance with Policies SG14 and HS11 of the South Holland Local Plan 2006.

6 Before the commencement of development hereby permitted, details of the landscape management and maintenance schedule for any areas of incidental open space, refuse/recycling collection points and parking courts/private drives, shall be submitted to, and approved in writing, by the Local Planning Authority. Thereafter these areas shall be maintained in accordance with the approved details.

Reason: To ensure that provision is made for the management and maintenance of any communal areas. This issue is integral to the development and therefore full details need to be finalised prior to the commencement of works.
This Condition is imposed in accordance with Policies SG1 and HS11 of the South Holland Local Plan 2006.

7 The development hereby permitted shall not be commenced until a scheme to deal with any contamination of land or pollution of controlled waters has been submitted to and approved in writing by the Local Planning Authority (LPA) and until the measures approved in that scheme have been implemented. The scheme shall include all of the following measures:

i) a desk-top study carried out to identify and evaluate all potential sources of contamination and the impacts on land and/or controlled waters, relevant to the site. The desk-top study shall establish a 'conceptual site model' and identify all plausible pollutant linkages. Furthermore, the assessment shall set objectives for intrusive site investigation works/Quantitative Risk Assessment (or state if none required). Two full copies of the desk- top study and a non-technical summary shall be submitted to the LPA without delay upon completion.
ii) if identified as being required following the completion of the desk-top study, a site investigation shall be carried out to fully and effectively characterise the nature and extent of any land contamination and/or pollution of controlled waters. It shall specifically include a risk assessment that adopts the Source-Pathway-Receptor principle, in order that any potential risks are adequately assessed taking into account the sites existing status and proposed new use. Two full copies of the site investigation and findings shall be forwarded to the LPA without delay upon completion.
iii) thereafter, a written method statement detailing the remediation requirements for land contamination and/or pollution of controlled waters affecting the site shall be submitted to and approved in writing by the LPA, and all requirements shall be implemented and completed to the satisfaction of the LPA. No deviation shall be made from this scheme. If during redevelopment contamination not previously considered is identified, then the LPA shall be notified immediately and no further work shall be carried out until a method statement detailing a scheme for dealing with the suspect contamination has been submitted to and agreed in writing by the LPA.
iv) two full copies of a full closure report shall be submitted to and approved in writing by the LPA. The report shall provide verification that the required works regarding contamination have been carried out in accordance with the approved Method Statement(s). Post-remediation sampling and monitoring results shall be included in the closure report to demonstrate that the required remediation has been fully met.

Note
The applicant is advised that the phased risk assessment required by the Contaminated Land Scheme Condition should be carried out in accordance with the procedural guidance of the Environmental Protection Act 1990 Part 11A.
The applicant's attention is also drawn to the document entitled "Developing Land Within Lincolnshire - A guide to submitting planning applications to develop land that may be contaminated", which can be obtained through the Local Environmental Health Department.

Reason: To assess whether the site is polluted and to address any pollution to ensure a satisfactory development. This issue is integral to the development and therefore full details need to be finalised prior to the commencement of works.
This Condition is imposed in accordance with Policy SG13 of the South Holland Local Plan, 2006.

8 The development hereby permitted shall be carried out in accordance with the approved Flood Risk Assessment (FRA) and in particular the following mitigation measures:
i) Finished floor levels are set at 1.0m above Ordnance Datum (AOD);
ii) 300mm flood resilient construction above finished floor levels
iii) The provision for safe refuge spaces in the roof spaces/first floor levels for any bungalows/two storey dwellings.

Reason: To reduce the risk of flooding to the proposed development and future occupants.
This Condition is imposed in accordance with the National Planning Policy Framework, 2019.

9 Before each dwelling is occupied the roads and/or footways providing access to that dwelling, for the whole of its frontage, from an existing public highway, shall be constructed to a specification to enable them to be adopted as highways maintainable at the public expense, less the carriageway and footway surface courses. The carriageway and footway surface courses shall be completed within three months from the date upon which the erection is commenced of the penultimate dwelling (or other development as specified).

Reason: To ensure safe access to the site and each dwelling/building in the interests of residential amenity, convenience and safety.
This Condition is imposed in accordance with Policies SG14 and SG15 of the South Holland Local Plan, 2006.

10 No dwellings shall be commenced before the first 50 metres of estate road from its junction with High Road, including visibility splays, has been completed.

Reason: In the interests of safety of the users of the public highway and the safety of the users of the site and to enable calling vehicles to wait clear of the carriageway of High Road. This issue is integral to the development and therefore full details need to be finalised prior to the commencement of works.
This Condition is imposed in accordance with Policies SG14 and SG15 of the South Holland Local Plan, 2006.

11 Before any dwelling is commenced, all of that part of the estate road and associated footways that forms the junction with the main road and which will be constructed within the limits of the existing highway, shall be laid out and constructed to finished surface levels in accordance with details to be submitted and approved by the local planning authority.

Reason: In the interests of safety of the users of the public highway and the safety of the users of the site. This issue is integral to the development and therefore full details need to be finalised prior to the commencement of works.
This Condition is imposed in accordance with Policies SG14 and SG15 of the South Holland Local Plan, 2006.

12 No development shall take place until a surface water drainage scheme for the site, based on sustainable urban drainage principles and an assessment of the hydrological and hydrogeological context of the development, has been submitted to and approved in writing by the Local Planning Authority.
The scheme shall:
a) Provide details of how run-off will be safely conveyed and attenuated during storms up to and including the 1 in 100 year critical storm event, with an allowance for climate change, from all hard surfaced areas within the development into the existing local drainage infrastructure and watercourse system without exceeding the run-off rate for the undeveloped site;
b) Provide attenuation details and discharge rates which shall be restricted to 1.4 litres per second per hectare;
c) Provide details of the timetable for and any phasing of implementation for the drainage scheme; and
d) Provide details of how the scheme shall be maintained and managed over the lifetime of the development, including any arrangements for adoption by any public body or Statutory Undertaker and any other arrangements required to secure the operation of the drainage system throughout its lifetime.
The development shall be carried out in accordance with the approved drainage scheme and no dwelling shall be occupied until the approved scheme has been completed or provided on the site in accordance with the approved phasing. The approved scheme shall be retained and maintained in full in accordance with the approved details.

Reason: To ensure that the site is adequately drained, to avoid pollution, and to prevent increased risk of flooding. This issue is integral to the development and therefore full details need to be finalised prior to the commencement of works.
This Condition is imposed in accordance with Policies SG11 and SG12 of the South Holland Local Plan, 2006 and national guidance contained in the National Planning Policy Framework, 2019.

13 A detailed scheme of construction management to minimise disturbance during the construction process through noise, dust, vibration and smoke shall be submitted to, and approved in writing by the Local Planning Authority, before the development commences, and the construction process shall be carried out in accordance with the scheme so approved.

Reason: In the interests of the amenity of local residents. This issue is integral to the development and therefore full details need to be finalised prior to the commencement of

works.
This Condition is imposed in accordance with Policy SG17 of the South Holland Local Plan, 2006.

14 Details of the precautions to be taken to prevent the deposit of mud on public highways by vehicles travelling from the site during construction of the development, shall be submitted to, and approved in writing by the Local Planning Authority, before the development commences. These facilities shall include the provision of wheel washing facilities, where considered necessary by the Local Planning Authority. These precautions shall be made available before commencement of the construction of the development, and be kept available and in full working order, until such time as the Local Planning Authority agrees, in writing to their withdrawal, or the completion of the development.

Reason: In the interests of highway safety during the construction process. This issue is integral to the development and therefore full details need to be finalised prior to the commencement of works.
This Condition is imposed in accordance with Policies SG15 and SG17 of the South Holland Local Plan, 2006.

15 No development shall commence until a foul water drainage strategy has been submitted to and approved in writing by the Local Planning Authority. No dwellings shall be occupied until the works have been carried out in accordance with the foul water strategy so approved unless otherwise approved in writing by the Local Planning Authority.

Reason: To prevent environmental and amenity problems arising from flooding. This condition is imposed in accordance with Policies SG12 and SG14 of the South Holland Local Plan, 2006.

Notes:

The Local Planning Authority has acted positively and proactively in determining this application by assessing it against all material considerations, including national guidance, planning policies and representations that have been received during the public consultation exercise, and by identifying matters of concern within the application and negotiating, with the Applicant, acceptable amendments to the proposal to address those concerns. As a result, the Local Planning Authority has been able to grant planning permission for an acceptable proposal.

This decision notice, the relevant accompanying report and the determined plans can be viewed online at http://planning.sholland.gov.uk/OcellaWeb/planningSearch

This planning permission is subject to an Agreement under Section 106 of the Town & Country Planning Act 1990 dated 6 March 2019 and can only be implemented as a consequence of meeting the provisions of that Agreement

The development hereby permitted will require the provision of a new vehicular access crossing. Applicants are requested to contact the Local Highway Authority's Divisional Office at Pode Hole - (via call centre Tel: 01522 782070) prior to the commencement of any works within the public highway.

Where a footway is to be constructed on private land, that land must be dedicated to the Highway Authority as public highway.

Lincs Wildlife Trust make comments that all of the recommendations in the Ecological Appraisal should be followed, that the open space be in one location rather than 3, with green corridors connected to any flood attenuation features. Such details shall be discussed at the matters stage.

The applicant is reminded that it is an offence under the wildlife and Countryside Act, 1981 (as amended) to kill, injure, or take (handle) any protected species occupying a place of shelter or protection and also to take, damage or destroy the nest of any wild bird while that nest is in use or being built. If evidence of bats is found before or whilst the work is carried out you are advised to contact Natural England at their Lincoln office (telephone 03000 603900).

The Council is in the process of finalising a new Local Plan (the South East Lincolnshire Local Plan). The new Local Plan has been through its formal Examination process and the final report from the Planning Inspectorate has now been received. However, the new Local Plan has yet to be formally adopted. The saved policies in the 2006 Adopted South Holland Local Plan therefore remain material. However, the new Local Plan is now considered to carry significant weight in the decision-making process.

Phil Norman
Planning and Building Control Manager
South Holland District Council

BUILDING REGULATIONS:
This decision refers only to planning permission as granted under the Town and Country Planning Act 1990. The works that you are proposing may also require Building Regulations and this planning permission does not give authority under Building Regulations to commence work. Please contact the Building Control section for further information on 01775 764557 or bcadmin@sholland.gov.uk

RIGHTS OF APPEAL

Appeals to the Secretary of State

If you are aggrieved by the decision of your Local Planning Authority to refuse permission for the proposed development or grant consent subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990 or Section 20 of the Planning (Listed Building and Conservation Areas) Act 1990.

Timescales for appealing

The deadlines for appeals are calculated from the **date of decision** and are as follows for the types of applications below:

12 Weeks	6 Months	8 Weeks
Householder Applications	Planning Permission	Consent to Display Adverts
Minor Commercial Development	Listed Building Consent	
Agricultural Determinations	Other Prior Approval Applications	
Householder Prior Approval Applications		

Enforcement Notices

If an enforcement notice was served prior to the planning application being determined then the deadline for appealing is 28 days from the date of the **planning refusal**

If an enforcement notice is served after the planning application is determined then the deadline for appealing is 28 days from the date of the **enforcement notice** OR **the timescales stated above for each application type** from the date of the planning refusal - whichever is sooner.

All appeals must be made using an Appeal Form which you can get from The Planning Inspectorate at Temple Quay House, 2 The Square, Bristol, BS1 6PN (tel: 0303 444 5000) or you can submit your appeal online at:

http://www.planningportal.gov.uk/planning/appeals/online/makeanappeal

The Secretary of State can allow a longer period for giving notice of an appeal but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the

provisions of the development order and to any directions given under the order. In practice the Secretary of State does not refuse to consider appeals solely because the Local Planning Authroity based its decision on a direction given by him.

For detailed information on appeals, appeal types and guidance on the appeals process please visit:

http://www.planningportal.gov.uk/planning/appeals/planningappeals

Purchase Notices

If either the Local Planning Authority or the Secretary of State refuses permission to develop land or grant it subject to conditions the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of the Part VI of the Town and Country Planning Act 1990 or Section 32 of the Planning (Listed Building and Conservation Areas) Act 1990.

Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference of the application to him.

These circumstances are set out in Section 114 and related provisions of the Town and Country Planning Act 1990 and Section 27 of the Planning (Listed Building and Conservation Areas) Act 1990.
