

laser storm **play the most exciting laser game on the planet!**

The action takes place in a darkened, pulsating and misty arena where players must pit their wits against the opposition. Each player wears an electronic laserjacket with computerized target, flashing lights and integral phaser to target their opponents. Use a combination of stealth and tactics in order to zap the opposite team and win the game!

unique laser arena | real lasers | ultra-violet light effects
exclusive bookings/walk in and play, come on your own or bring your mates | fast food & drinks
pool table | music videos | video games
free parking | licensed bar now open
