CASE OFFICER ASSESSMENT

PROPOSAL

This is a householder application seeking permission for a single storey rear extension to create a garden room. It would measure 5 metres (depth) x 4.3 metres (width) and stand at 3 metres in height. The brickwork, doors and windows would match the existing dwelling.

SITE DESCRIPTION

The property is a large detached two storey dwelling on Broadgate in Weston Hill. The site is outside any defined settlement boundary and within the open countryside. The dwelling is red brick built with white window frames. There is a double attached garage to the side and a large driveway to the front providing further off-street parking for several vehicles. The immediate area is

predominantly open countryside with a small number of dwellings scattered along the road.

RELEVANT PLANNING HISTORY

No relevant planning history.

REPRESENTATIONS

No representations received.

PLANNING CONSIDERATIONS

Layout, Design, Size and Scale

Paragraph 130 of the National Planning Policy Framework (NPPF), 2021 establishes that planning policies and decisions should ensure that developments will function well and add to the overall quality of the area; are visually attractive as a result of good architecture and sympathetic to local character and history, including the surrounding built environment and landscape setting; and create places that are safe, inclusive and accessible and which promote health and well-being, with a high standard of amenity for existing and future users, among other considerations. Likewise, Policy 2 of the SELLP states that design which is inappropriate to the local area, or which fails to maximise opportunities for improving the character and quality of an area, will not be acceptable.

The proposed extension is considered to be proportionate to the size of the existing dwelling and the plot. The site is big enough to comfortably accommodate the proposed extension without resulting in overdevelopment of the site and would also retain an adequate amount of outdoor amenity space. There may be glimpsed views of the proposed extension from the open countryside to the north and east of the side, however, given the distance from the northern and eastern boundaries, the proposed extension would not appear overly prominent. In addition, the use of matching elevational materials would ensure the extension is in keeping with the character of the existing dwelling.

As such the extensions would on balance comply with the aforementioned policies on design, layout and impact upon the character of the local area.

Impacts upon Residential Amenity

The proposed extension would be located well within the site and a significant distance from all boundaries and neighbouring properties therefore no unacceptable impact would result on neighbouring amenity.

As such the proposal would accord with Paragraph 130 of National Planning Policy Framework (2021) and Policies 2 and 3 of South East Lincolnshire Local Plan (2019).

Planning Balance

On balance, the proposal will not materially harm the character or appearance of the locality or amenity of nearby residents. The planning balance is therefore considered to be in favour of the proposal.

CONCLUSION

In light of the considerations above, the proposal is considered to be in accordance with Policies 1, 2 and 3 of the South East Lincolnshire Local Plan (2019) and Section 12 of the National Planning Policy Framework (2021).

Additional Considerations

Public Sector Equality Duty

In making this decision the Authority must have regard to the public sector equality duty (PSED) under s.149 of the Equalities Act. This means that the Council must have due regard to the need (in discharging its functions) to:
A. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by

the Act.
B. Advance equality of opportunity between people who share a protected characteristic and those who do not. This may include removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic; taking steps to meet the special needs of those with a protected characteristic; encouraging participation in public life (or other areas where they are underrepresented) of people with a protected characteristic(s).
C. Foster good relations between people who share a protected characteristic and those who do not including tackling prejudice and promoting understanding.

The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The PSED must be considered as a relevant factor in making this decision but does not impose a duty to achieve the outcomes in s.149. It is only one factor that needs to be considered, and may be balanced against other relevant factors.

It is not considered that the recommendation in this case will have a disproportionately adverse impact on a protected characteristic.

Human Rights

In making a decision, the Authority should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as South Holland District Council to act in a manner that is incompatible with the European Convention on Human Rights. The Authority is referred specifically to Article 8 (right to respect for private and family life) and Article 1 of the First Protocol (protection of property).

It is not considered that the recommendation in this case interferes with local residents' right to respect for their private and family life, home and correspondence, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general public interest and the recommendation is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

RECOMMENDATION

The application can be approved under delegated powers.
