Application	H22-1061-17
Location	Site adj to 30 Austendyke Road Weston Hills Spalding PE12 6BX
Proposal	Proposed 4 no. dwellings

Name	J Reith
Address	Environmental Health Technician Safety and Environment
Date Submitted	10-11-17
For/Against	Comments

My comments relating to condition compliance application H22-1300-16 also apply to this application:
The Validation Report - First Stage (Ref973/4008/P dated August 2017) by Humberside Materials Laboratory details that the underground
storage tank has been removed as per the method statement. Other validation is required on site, so therefore part 4 of the condition
cannot be discharged until all of the evidence has been submitted.

Therefore I request Part iv (validation) of the contaminated land condition for this application.
