Subject: H22-1172-21 The experimental house

This message originated from outside your organization

Good morning Lucy

Re; H22-1172-21 The experimental use (temporary permission) - approved under H22-0772-17. Modification of Condition 1 to allow dwelling to remain on site for a further period of time.

Further to reviewing the objection from the parish council we wish to respond to their comments as follows ;

'1) Insufficient information on time scale of application.' - The application form requested 5 years taking it to 5th December 2026
'2) No satisfactory justification for a need for an extension.' – The circumstances for everyone over the last 19 months are unprecedented and have impacted on completion and arranging meetings. Work has been protracted and encouraging people to travel to meet and review onsite has not always been easy or at times possible. The interior of the experimental house is still not complete.

We trust the above will provide some reassurance to the parish council.

Kind regards

Peter
