Plans drawn for: Local Authority planning permission & Building Control.

PROPOSED GOLF DRIVING RANGE TO 38 MOULTON CHAPEL ROAD, COWBIT

- Driving ranges will be designed and constructed as a timber framed monopitch building with front oversail.
- The span of the driving range is 4.88m with a 1.2m oversail. The height at the rear of the range is 2.66m rising at 15° pitch to give a ridge height of 3.96m (giving 3.0m clear internal height at the driving position). Bays of the building are 6.0m; each divided to provide two driving points.
- External cladding with horizontal shiplap boarding to 1.2m high with diagonal shiplap boarding above, all pressure treated finish.
- Roof box profile Plastisol coated steel sheeting, with shadowline bargeboards and PVC rainwater goods to eaves and the oversail.
- Bay dividers are 1.22m high clad both sides with exterior plywood complete with top capping.
