Subject: RE: Proposed New dwelling adjacent 87 High Road, Weston, Lincolnshire, PE12 6RA -
Highways enquiry (A1196)

This is what we are showing on our records Carl. The blue indicates unclassified County Highway. It is not normally necessary to serve Notice (Certificate B) on the Highway Authority for a vehicle access crossing.

The vehicle access crossing itself, over the whole of the highway verge, would have to be constructed to the County Specification. There is nothing more to do at this stage but there would be an advice note on any Consent Notice for the developer to contact the local highways office (Pode Hole) prior to the start of any work within the public highway.

Regards,

Jon.
