The Mercury One 2 One signal is limited in this area, and a site is required to provide acceptable coverage to their customers.

A lack of flat rooftops and existing masts in the area has meant a new mast is needed. Mercury One 2 One have opted for a monopole structure which is the least obtrusive structure available to the operator and located it at the end of young wood next to OH power lines which will conceal the structure as much as possible from the adjacent roads and nearby houses and it will be diminished in scale by distance.
