Proposal Details of site levels and floor levels, boundary treatment, land scaping and contamination report (Conditions 4, 5, 6 and 7 of H23-0668-17)

Name Noise and Contaminated Land
Address Environmental Health Technician Safety and Environment

Date Submitted 06-03-18
For/Against Comments

Having considered the report produced by Stuart Guy Consulting, reference 17-09-01 dated 22 September 2017, alongside other relevant information available to me, I'm satisfied that any potential risk from the indicated filled pit or pond located to the east of the site is low and as such the relevant planning condition can be discharged.
