This drawing is copyright and may not be reproduced or used except by permission or in accordance with the terms of the Agreement under which it was issued. The Planning Consultant is not responsible for any errors or omissions contained in information supplied by others. Any discrepancies must be reported to the Planning Consultant before any work is put in hand. Dimensions are to be checked on site and not scaled from the drawing. Any work and materials are to comply with any current statutory regulations, codes of practice and British Standards. Where products are specified by proprietary name, alternative products may be substituted only with the approval of the Planning Consultant. The Contractor is responsible for the adequacy of any temporary or permanent works and for ensuring that the building is structurally sound. Any design undertaken by the Contractor or his sub-contractors must be submitted to the Planning Consultant for approval before work commences. The Client is responsible for appointing a competent CDM coordinator and for ensuring that the CDM Regulations are complied with. The Client is responsible for obtaining all necessary approvals for the project and for ensuring that the Contractor and all sub-contractors have adequate insurance cover. Before commencement of work the Contractor must submit to the Client for approval a detailed method statement and risk assessment which takes account of the CDM Regulations. The Contractor must ensure adequate temporary bracing and propping is provided to maintain the stability of the structure during construction. Work that may not seem immediately obvious but that may be necessary to ensure the safety of the building, its occupants and others, is the responsibility of the Contractor. Party Wall etc. Act 1996: when building or close proximity to adjoining neighbour's boundaries, you must serve notice on all affected neighbours at least two months before work starts.
