3. Description of the Proposal

Please describe the proposed development including any change of use:

A new barn constructed to replace a previous old barn and several other outbuildings for continuing agricultural use, particularly over-wintering of animals. Our animals are kept on our 10 acres of land and an additional 20 acres of pasture which we currently rent.

The previous barn and other buildings, which were on the same site and had approximately the same overall square footage, were old and somewhat ramshackle to look at and very much in need of significant improvement. The old buildings, put up by the previous owners many years ago, have been taken down and removed. The new modern open barn is more practical and flexible than the previous barn and outbuildings, and will allow us to ensure our animals are kept safe in a more modern environment, particularly in the winter months, without having to consider an increase in the area used for such buildings previously at the property. The changes are part of an overall improvement of the maintenance of the property that we have been undertaking since we purchased the property in September 2015.

There is no change of use as the previous buildings were used for the same purposes.

Has the building, work or change of use already started?	◉ Yes ○ No	If Yes, please state the date when the building, work, or use started:	11/09/2017
