This site lies within an area of known medieval salterns and the proposed development has the potential to disturb previously unknown archaeological finds and features relating to the medieval saltern site.

The specification submitted with this application has been approved as a written scheme of archaeological investigation as required by condition 7 of the outline application H23-1019-17.

Should full planning permission be granted, we look forward to receiving notification of works beginning on site, the work being carried out, and reading the final report.
