I have reviewed the Geo-Environmental Desk Study - Prepared by Goldfinch Environmental Limited Report Ref: 0603/1 - Dated March 2019 and request the following condition be applied:
In the event that contamination is found at any time when carrying out the approved development that was not previously identified it must be reported immediately to Environmental Health. An investigation and risk assessment must be undertaken in accordance with details to be agreed with Environmental Health. Where remediation is necessary, a remediation scheme must be submitted to and approved in writing by Environmental Health. Following completion of measures identified in the approved remediation scheme a verification report shall be submitted to and approved by Environmental Health.
