June 23rd 2015

As one of the main local businesses in the village I am writing to give my full support for Mr and Mrs Ling's residential dwelling application. I have had a look at the most recent plans and very much like the improvements. I have known this family for the last 13 years and they have been good customers throughout this time. They use the shop for groceries on a daily basis, have weekly magazines delivered, use the Post Office frequently and also the bus service from outside my shop. Their eldest son also catches his School bus from here every day. As a young family trying to get onto the housing ladder it can prove very difficult so granting this permission would allow them this chance. I cannot see any cons to this as they already live in the village with parents, they use all the amenities here and the children are settled in Schools here. Allowing a house to be built on the plot would actually improve the look of what's there and would simply be infilling a space between houses.

Mrs Sue Mellish

A handwritten signature in black ink, appearing to read 'Sue Mellish', with a stylized, cursive script.
