Based on the information provided in Humberside Materials laboratory Limited reports 'Phase 1 (desk study) report Land of Cob Gate, Whaplode' ref 1059/4540/P/P1 dated May 2018 and 'Phase 2 (site investigation) report' ref 1059/45450/P/P2 dated June 2018 a land contamination condition is not required. I therefore have no objections to the development.
