Eligibility

Permitted development rights are subject to conditions set by legislation to ensure that only appropriate proposals are eligible. The need to apply to the Local Planning Authority to see if prior approval is required is one such condition.

This permitted development right was amended on 21 May 2024 to broaden the range of buildings that could be converted to dwellings, allow extensions to the building, and to increase the total number of dwellings from 5 to 10.

However, the right was also updated to:

- No longer permit the creation of any dwelling with a floorspace over 150 square metres (previously, 'larger' dwellings could be up to 465 square metres)
- Remove the eligibility of any building that does not have suitable existing access to a public highway (previously, this was not an eligibility requirement)

Proposals that do not meet the above criteria are temporarily allowed to use the previous version of the permitted development right, though this will mean you are not able to benefit from any of the amendments made.

Select the checkbox below if you wish to use the previous version. Otherwise you should continue through this application, which is based on the current legislation as amended.

- ☒ **I/We confirm that this application will use the permitted development right as it stood prior to 21 May 2024.** In confirming this, I/we understand that:
- The application must be received by the local authority by 20 May 2025 (the payment process on Planning Portal must be completed before the application will be submitted).
 - The [supplementary information template](#) covering the pre-21 May 2024 eligibility criteria and information requirements must be downloaded, completed and attached as a supporting document.
 - Failure to do either of the above could result in application being refused without the fee being refunded.

Agricultural tenants

To be eligible for this permitted development right, all parties to any agricultural tenancy agreements that are currently in place, or that have been terminated in the year before development is proposed to begin, need to provide consent.

This is to help ensure that agricultural tenants are not displaced to allow a change of use to be carried out.

Is the site currently occupied under any agricultural tenancy agreements?

- ☐ Yes
☒ No

Have any agricultural tenancy agreements been terminated in the year before development is proposed to begin for the purpose of carrying out the proposed change of use?

- ☐ Yes
☒ No

Description of Proposed Works, Impacts and Risks

Please describe the proposed development, including the siting and location of the building(s)

Proposed conversion of existing agricultural building to form 2 new dwellings.

Please provide details on the provision of adequate natural light in all habitable rooms of the dwellinghouses

Natural light to be provided to all habitable rooms via windows which will utilise existing structural openings where possible.

Will the building(s) be extended as part of the proposed development

- ☐ Yes
☒ No

NOTE: If using the transitional provision to benefit from the permitted development rights as they stood prior to 21 May 2024, then extensions are not permitted, and you should answer 'No'.

Are any associated building works or other operations required to make this change?

Note that such works are restricted to those listed below that are reasonably necessary to convert the building(s) for use as a dwellinghouse:

- the installation or replacement of windows, doors, roofs, or exterior walls;
- the installation or replacement of water, drainage, electricity, gas or other services;
- partial demolition to the extent reasonably necessary to carry out the works listed above.

- ☒ Yes
☐ No

If yes, please provide details of the design and external appearance of the building(s) in regard to these building works or other operations:

The external appearance of the building has been designed to be retained as much as possible.

Please provide details of any transport and highways impacts and how these will be mitigated:

Vehicular movements is to be reduced as a result of the proposal as at present the buildings are agricultural and can produce unlimited vehicular movement involving large agricultural machinery. The application is for two smaller residential units and will therefore create minimal vehicular movements.

Please provide details of any noise impacts and how these will be mitigated:

Party walls are to be introduced between the units internally and will provide enough sound suppression to provide a good standard of living and meet the standards in place. No further sound proofing is considered needed due to the location of the proposal.

Please provide details of any contamination risks and how these will be mitigated:

No contamination has been found on site during the site survey. If contamination is to be found during construction, it is expected that works are to be paused and a remediation scheme be produced, submitted, approved and adhered to.

Please provide details of any flooding risks and how these will be mitigated.

A flood risk assessment should accompany the application where the site:

- is in Flood Zones 2 or 3; or
- is in an area with critical drainage problems (such areas will have been notified to the Local Planning Authority by the Environment Agency).

[Check if your site location is in Flood Zone 2 or 3 online.](#)

Check with your Local Planning Authority to see if your site is in an area with critical drainage problems.

The site resides within both flood zones 2 and 3 and as such, a flood risk report will accompany this application.

Declaration

I/We hereby apply for Prior Approval: Change of use - agricultural (or former agricultural) buildings to dwellinghouses as described in the questions answered, details provided, and the accompanying plans/drawings and additional information.

I/We confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them.

I/We also accept that, in accordance with the Planning Portal's terms and conditions:

- Once submitted, this information will be made available to the Local Planning Authority and, once validated by them, be published as part of a public register and on the authority's website;
- Our system will automatically generate and send you emails in regard to the submission of this application.

☒ I / We agree to the outlined declaration

Signed

Swann Edwards
