I can confirm that this written scheme of archaeological investigation meets our requirements in respect of condition 5. This office also received notification from the developer's archaeologist of the intention to commence works on site on the 09/09/19, as required by condition 6. We therefore recommend that these two conditions can now be discharged.

However, as yet we have no received a final report of the work undertaken, as is required by condition 7. Therefore Condition 7 should not be discharged until the final report has been submitted and approved.
