

D. Farrah

It is likely further roots will be damaged if the extension is allowed as angle reaches further back across root spread.

CHURCHGATE

Notes and Remarks

Do not scale from this drawing.

This drawing is copyright and may not be altered, copied, applied, photographed or used for any purpose other than that for which it is issued without written permission from Messrs. Status Design.

The General Contractor is to check all dimensions on site and report discrepancies to the Architect.

All details shown on this drawing are based upon ground level conditions related to the area. No responsibility can be accepted for structural problems arising from the Architect or that design conditions are to be considered.

Please note: This drawing is not a construction drawing.

Drawings shall be in accord with the design and construction details shown on the drawings and the Architect's instructions. The Architect shall be responsible for the design and safety of the work. See also the Architect's instructions.

SITE PLAN

Be aware of root damage near frontage. Evidence of some root material exposed.

+ any change in soil level. If anything at present the soil level looks lowered - as roots exposed.
