Subject: RE: H23-1062-14 - Cobgate Building

Dear Mr Gedney

Please see below the information you require in connection with the above Planning Application

The existing roof is an insulated built up roof system comprising of Fibre cement, twin skin construction with fibreglass between

The fixed machines used in the workshop are Band saw Cutting Machine, Pillar Drill and a Kingsland Ironworker.

There is no intention of using a Press Brake or Sheet Metal Guillotine type machine as these are not applicable to the applicants trade

Regards

M. Watson (Agent)

Dear Mr Watson,

We hope to take the above application to the next Committee on 18 March 2014.

The deadline for Committee reports is tomorrow so could you please provide the info relating to plant/equipment and the structure of the roof by later today please.

Many thanks

David Gedney
